

Use of Force

300.1 PURPOSE AND SCOPE

This policy is intended to provide clarity to officers and promote safety for all by ensuring that all available and appropriate de-escalation techniques are used when possible, force is used appropriately only when necessary, and the amount of force used is proportional to the threat or resistance the officer encounters as well as the seriousness of the law enforcement objective that is being served.

While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every officer of this agency is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner.

In addition to those methods, techniques, and tools set forth below, the guidelines for the reasonable application of force contained in this policy shall apply to all policies addressing the potential use of force, including but not limited to the Control Devices and Techniques and Conducted Energy Device policies.

This policy incorporates the Washington State Office of the Attorney General Model Use of Force Policy.

300.1.1 DEFINITIONS

Definitions related to this policy include:

Chokehold - The intentional application of direct pressure to a person's trachea or windpipe for the purpose of restricting another person's airway (RCW 10.116.020).

Deadly force - The intentional application of force through the use of firearms or any other means reasonably likely to cause death or serious physical injury (RCW 9A.16.010).

De-escalation tactics - Actions used by a peace officer that are intended to minimize the likelihood of the need to use force during an incident (RCW 10.120.010). Using force is not a de-escalation tactic.

Feasible - Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the officer or another person.

Flight - An act or instance of running away in an effort to leave and intentionally evade law enforcement.

Immediate threat of serious bodily injury or death - Based on the totality of the circumstances, it is objectively reasonable to believe that a person has the present and apparent ability, opportunity, and intent to immediately cause death or serious body injury to the peace officer or another person (RCW 10.120.020).

Imminent - Ready to take place; impending. Note that imminent does not mean immediate or instantaneous.

East Wenatchee Police Department

EWPD Policy Manual

Use of Force

Necessary - Under the totality of the circumstances, a reasonably effective alternative to the use of force or deadly force does not appear to exist, and the type and amount of force or deadly force used is a reasonable and proportional response to effect the legal purpose intended or to protect against the threat posed to the officer or others (RCW 10.120.010).

Neck restraint - Any vascular compression or similar restraint, hold, or other tactic in which pressure is applied to the neck for the purpose of constricting blood flow (RCW 10.116.020).

Physical force (referred to as "force" in this policy) - Any act reasonably likely to cause physical pain or injury or any other act exerted upon a person's body to compel, control, constrain, or restrain the person's movement. Physical force does not include pat-downs, incidental touching, verbal commands, or compliant handcuffing where there is no physical pain or injury (RCW 10.120.010).

Totality of the circumstances - All facts known to the officer leading up to, and at the time of, the use of force, and includes the actions of the person against whom the officer uses such force, and the actions of the officer (RCW 10.120.010).

300.2 POLICY

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

It is the fundamental duty of law enforcement to preserve and protect all human life (RCW 10.120.010). Officers shall respect and uphold the dignity of all persons and use their authority in a bias-free manner.

The proper use of force is essential to ensure impartial policing and build trust in the community. While there are circumstances where individuals will not comply with the law unless compelled or controlled by officers through the use of force, officers must remain mindful that they derive their authority from the community and that unreasonable force degrades the legitimacy of that authority (Washington State Office of the Attorney General Model Use of Force Policy).

Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation, and a careful balancing of all interests.

Nothing in this policy limits or restricts an officer's authority or responsibility to perform lifesaving measures or community caretaking functions or prevents an officer from responding to requests for assistance or service (RCW 10.120.020).

300.2.1 DUTY TO INTERVENE AND REPORT

Any officer present and observing another law enforcement officer or a member attempting to use or using force that is clearly beyond that which is objectively reasonable under the circumstances

East Wenatchee Police Department

EWPD Policy Manual

Use of Force

shall, when in a position to do so, intervene to prevent the use of unreasonable force (RCW 10.93.190).

Any officer who observes another law enforcement officer or a member attempting to use or using force that is potentially beyond that which is objectively reasonable under the circumstances shall report these observations to a supervisor as soon as feasible (RCW 10.93.190).

300.2.2 PERSPECTIVE

When observing or reporting force used by a law enforcement officer, each officer should take into account the totality of the circumstances and the possibility that other law enforcement officers may have additional information regarding the threat posed by the subject.

300.2.3 ADDITIONAL STATE REQUIREMENTS ON THE DUTY TO INTERVENE AND REPORT

An officer shall not be disciplined for or retaliated against in any way for intervening in good faith or for reporting in good faith the unreasonable use of force by another law enforcement officer (RCW 10.93.190) (see the Anti-Retaliation Policy).

300.2.4 CRITICAL DECISION MAKING

Use of critical decision making can help officers achieve the expectations outlined in this manual. When safe and feasible, when making or considering whether to make contact with a member of the public, officers shall (Washington State Office of the Attorney General Model Use of Force Policy):

- (a) Begin assessment and planning with available facts before arriving at the scene.
- (b) Request available resources, as needed, such as a crisis intervention team or other appropriate specialty unit or professionals.
- (c) Collect information when on scene.
- (d) Assess situations, threats, and risks.
- (e) Identify options for conflict resolution.
- (f) Determine a reasonable course of action.
- (g) Review and re-assess the situation as it evolves.

Nothing in this policy precludes officers from taking quick action when faced with a life-threatening situation, such as an active shooter. When safe and feasible, officers shall not unnecessarily jeopardize their own safety or the safety of others through tactical decisions that unreasonably place themselves or others at risk including but not limited to (Washington State Office of the Attorney General Model Use of Force Policy):

- (a) Immediately approaching a person without proper evaluation of the situation.
- (b) Leaving insufficient space between an officer and the person.
- (c) Not providing time for a person to comply with commands.
- (d) Unnecessarily escalating a situation.

Use of Force

300.3 USE OF FORCE

Officers shall use only the least amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose. Officers shall use reasonable care when determining whether to use and when using any physical force or deadly force against another person (RCW 10.120.020).

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain, and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons, or methods provided by this agency. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

300.3.1 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factors include but are not limited to (RCW 10.120.020):

- (a) Immediacy and severity of the threat to officers or others.
- (b) The conduct of the individual being confronted, as reasonably perceived by the officer at the time.
- (c) Officer/subject factors (e.g., age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
- (d) The effects of suspected drug or alcohol use.
- (e) The individual displays signs of mental, behavioral, intellectual, developmental, or physical impairments or disabilities, including individuals who reasonably appear suicidal.
- (f) The individual's ability to understand and comply with officer commands.
- (g) Proximity of weapons or dangerous improvised devices.

East Wenatchee Police Department

EWPD Policy Manual

Use of Force

- (h) The degree to which the individual has been effectively restrained and the individual's ability to resist despite being restrained.
- (i) The availability of other reasonable and feasible options and their possible effectiveness.
- (j) Seriousness of the suspected offense or reason for contact with the individual.
- (k) Training and experience of the officer.
- (l) Potential for injury to officers, suspects, and others.
- (m) Whether the individual appears to be resisting, attempting to evade arrest by flight, or is attacking the officer.
- (n) The risk and reasonably foreseeable consequences of escape.
- (o) The apparent need for immediate control of the individual or a prompt resolution of the situation.
- (p) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
- (q) Prior contacts with the individual or awareness of any propensity for violence.
- (r) The individual is visibly pregnant or claims to be pregnant.
- (s) The individual is a minor, appears to be a minor, or claims to be a minor.
- (t) The individual is known to be a vulnerable adult or appears to be a vulnerable adult as defined by RCW 74.34.020.
- (u) The individual has limited English proficiency.
- (v) The individual is in the presence of a child.
- (w) Any other exigent circumstances.

300.3.2 PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Officers may only apply those pain compliance techniques for which they have successfully completed agency-approved training. Officers utilizing any pain compliance technique should consider:

- (a) The degree to which the application of the technique may be controlled given the level of resistance.
- (b) Whether the individual can comply with the direction or orders of the officer.
- (c) Whether the individual has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the officer determines that compliance has been achieved.

300.3.3 USE OF FORCE TO SEIZE EVIDENCE

In general, officers may use reasonable force to lawfully seize evidence and to prevent the destruction of evidence. However, officers are discouraged from using force solely to prevent

East Wenatchee Police Department

EWPD Policy Manual

Use of Force

a person from swallowing evidence or contraband. In the instance when force is used, officers should not intentionally use any technique that restricts blood flow to the head, restricts respiration or which creates a reasonable likelihood that blood flow to the head or respiration would be restricted. Officers are encouraged to use techniques and methods taught by the East Wenatchee Police Department for this specific purpose.

300.3.4 ALTERNATIVE TACTICS - DE-ESCALATION

When possible, officers shall use all reasonably available and appropriate de-escalation tactics prior to using force (RCW 10.120.020).

Depending on the circumstances, officers have a number of de-escalation tactics to choose from which include but are not limited to (Washington State Office of the Attorney General Model Use of Force Policy):

- (a) Employing tactical positioning and repositioning to maintain the benefit of distance and cover, such as backing away from the person to re-assess and determine which tactics to use.
- (b) Placing barriers or using existing structures to provide a shield or other protection between officers and a person.
- (c) Attempting to slow down or stabilize the situation to allow for the consideration and arrival of additional resources that may increase the likelihood of a safe resolution.
- (d) Requesting and using available support and resources, such as a crisis intervention team, a designated crisis responder, other behavioral health providers, or back-up officers, including more experienced officers or supervisors.
- (e) Using clear instructions and verbal persuasion.
- (f) Employing verbal and non-verbal communication techniques to calm a person (e.g., speaking slowly, regulating tone and body language, uncrossing one's arms, minimizing hand gestures, reducing bright, flashing lights and sirens).
- (g) Attempting to communicate in non-verbal ways when verbal instructions would be inadequate (e.g., when the person and officer speak different languages, the person is unable to hear or understand instructions).
- (h) Communicating in a way that demonstrates respect for people's dignity (e.g., clearly explaining the officer's actions and expectations, listening to the person's questions and concerns and responding respectfully, being neutral and fair when making decisions).
- (i) When there are multiple officers, designating one officer to communicate in order to avoid competing or confusing commands.
- (j) Exhibiting patience while using all available and appropriate tactics and resources to provide as much time as needed to resolve the incident without using force.

300.3.5 RESTRICTIONS ON RESPIRATORY RESTRAINTS

Officers of this agency are not authorized to use respiratory restraints, also known as chokeholds or neck restraints (RCW 10.116.020).

East Wenatchee Police Department

EWPD Policy Manual

Use of Force

300.3.6 PERMISSIBLE USES OF FORCE

An officer may use force upon another person to the extent necessary under these circumstances to (RCW 10.120.020):

- (a) Protect against a criminal offense when there is probable cause that the person has committed, is committing, or is about to commit the offense.
- (b) Effect an arrest.
- (c) Prevent an escape as defined under chapter 9A.76 RCW.
- (d) Take a person into custody, transport a person for evaluation or treatment, or provide other assistance under RCW 10.77; RCW 71.05; or RCW 71.34.
- (e) Take a minor into protective custody when authorized or directed by statute.
- (f) Execute or enforce a court order authorizing or directing an officer to take a person into custody.
- (g) Execute a search warrant.
- (h) Execute or enforce an oral directive issued by a judicial officer in the courtroom or a written order where the court expressly authorizes an officer to use force to execute or enforce the directive or order.
- (i) Prevent a person from fleeing or stop a person who is actively fleeing a lawful temporary investigative detention, provided that the person has been given notice that the person is being detained and is not free to leave.
- (j) Take a person into custody when authorized or directed by statute.
- (k) Protect against an imminent threat of bodily injury to the officer, another person, or the person against whom force is being used.

Officers shall terminate the use of force as soon as the necessity for such force ends (RCW 10.120.020).

300.3.7 IDENTIFICATION, WARNING, AND OPPORTUNITY TO COMPLY PRIOR TO THE USE OF FORCE

When safe and feasible, prior to the use of force, officers shall (Washington State Office of the Attorney General Model Use of Force Policy):

- (a) Identify themselves as law enforcement officers.
 - 1. Identification is unnecessary when the officer has objectively reasonable grounds to believe the person is aware of this fact.
- (b) Attempt to determine whether the person has a special need, mental condition, physical limitation, developmental disability, language barrier, or other factor that may impact the person's ability to understand and comply with officer commands.
- (c) Provide clear instructions and warnings.
- (d) Warn a person that force will be used unless the person's resistance ceases.

Use of Force

- (e) Give the person a reasonable opportunity to comply with the warning that force may be used.

300.4 DEADLY FORCE APPLICATIONS

When reasonable, officers shall, prior to the use of deadly force, make efforts to identify themselves as peace officers and to warn that deadly force may be used, unless an officer has objectively reasonable grounds to believe the person is aware of those facts.

Use of deadly force is only justified when the officer reasonably believes it is necessary in the following circumstances (RCW 10.120.020):

- (a) An officer may use deadly force to protect the officer or others from what the officer reasonably believes is an immediate threat of serious physical injury or death.
- (b) An officer may use deadly force to stop a fleeing subject when the officer has probable cause to believe that the individual has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the officer reasonably believes that there is an immediate threat of serious bodily injury or death to any other person if the individual is not immediately apprehended. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

300.4.1 MOVING VEHICLES

Shots fired at or from a moving vehicle involve additional considerations and risks, and are rarely effective.

An officer may not fire a weapon upon a moving vehicle unless necessary to protect against an imminent threat of serious bodily injury resulting from the operator's or a passenger's use of a deadly weapon. A vehicle is not considered a deadly weapon unless the operator is using the vehicle as a deadly weapon and no other reasonable means to avoid potential serious harm are immediately available to the officer. (RCW 10.116.060).

When feasible, officers shall attempt to move out of the path of a moving vehicle rather than discharge their weapon at the operator.

Officers shall not shoot at any part of a vehicle in an attempt to disable the vehicle.

An officer shall not discharge a firearm from a moving vehicle, unless a person is immediately threatening the officer or another person with deadly force.

300.4.2 DRAWING AND POINTING A FIREARM

- (a) An officer should only draw a firearm in the low-ready position (i.e., unholstered but out of the officer's visual field) when the officer makes reasonable observations based on the totality of the circumstances that the situation may evolve to the point where deadly force would be justified.
- (b) An officer should only point a firearm at a person when deadly force is justified.
- (c) When it is determined that the use of deadly force is not necessary, the officer should, as soon as safe and feasible, lower, holster, or secure the firearm.

East Wenatchee Police Department

EWPD Policy Manual

Use of Force

- (d) Pointing a firearm at a person is a reportable use of force and its justification and circumstances shall be documented in accordance with procedures set by the statewide use of force data collection program (RCW 10.118.030).

300.4.3 RESTRICTED USE

Officers shall not use a firearm in the following circumstances (Washington State Office of the Attorney General Model Use of Force Policy):

- (a) As an impact weapon except when deadly force is justified.
- (b) When it appears likely that an innocent person may be injured by the officer discharging the firearm in the direction of an innocent person.
- (c) When discharging or pointing a firearm at a person who presents a danger only to themselves and does not have the apparent ability, opportunity, and intent to immediately cause death or serious bodily injury to the officer or another person.
- (d) When discharging or pointing a firearm at a person who presents a danger only to property and does not have the apparent opportunity or intent to immediately cause death or serious bodily injury to the officer or another person.

300.4.4 DISCHARGE OF FIREARMS

Officers are only permitted to discharge a firearm at a person in situations where deadly force is justified. Each discharge of the firearm must be justified. When feasible, officers shall give a verbal warning that a firearm will be discharged. Prior to the decision to use a firearm, officers should consider field of fire, backdrop, bystanders, potential for ricochet, and other risks of life (Washington State Office of the Attorney General Model Use of Force Policy).

300.5 REPORTING THE USE OF FORCE

Any use of force by a member of this agency shall be documented promptly, completely, and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances.

To collect data for purposes of training, resource allocation, analysis, and related purposes, the Agency may require the completion of additional report forms, as specified in agency policy, procedure, or law. See the Report Preparation Policy for additional circumstances that may require documentation.

300.5.1 NOTIFICATIONS TO SUPERVISORS

Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

- (a) The application caused a visible injury.
- (b) The application would lead a reasonable officer to conclude that the individual may have experienced more than momentary discomfort.
- (c) The individual subjected to the force complained of injury or continuing pain.

East Wenatchee Police Department

EWPD Policy Manual

Use of Force

- (d) The individual indicates intent to pursue litigation.
- (e) Any application of the TASER (TM) device or control device.
- (f) Any application of a restraint device other than handcuffs, shackles, or belly chains.
- (g) The individual subjected to the force was rendered unconscious.
- (h) An individual was struck or kicked.
- (i) An individual alleges unreasonable force was used or that any of the above has occurred.

300.5.2 NOTIFICATION TO INDIAN AFFAIRS

When the use of force by an officer results in the death of a person who is an enrolled member of a federally recognized Indian tribe, notification shall be made to the Governor's Office of Indian Affairs within a reasonable period of time, but not more than 24 hours after the agency has good reason to believe the person was an enrolled member. Notice shall include sufficient information for the Governor's Office of Indian Affairs to attempt to identify the deceased person and tribal affiliation (RCW 10.114.021).

300.5.3 NOTIFICATION TO CRIMINAL JUSTICE TRAINING COMMISSION (CJTC)

Notification shall be made to CJTC within 15 days of learning of the occurrence of any death or serious injury caused by the use of force by an officer (RCW 43.101.135).

300.5.4 REPORTING TO WASHINGTON STATEWIDE USE OF FORCE DATA PROGRAM

The Agency shall submit reports regarding use of force incidents as provided by RCW 10.118.030 to the Washington statewide use of force data program in the format and time frame established by the program (RCW 10.118.030).

300.6 MEDICAL CONSIDERATIONS

Once it is reasonably safe to do so, medical assistance shall be obtained for any person who exhibits signs of physical distress, has sustained visible injury, expresses a complaint of injury or continuing pain, or was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until the individual can be medically assessed. Individuals should not be placed on their stomachs for an extended period, as this could impair their ability to breathe (RCW 10.93.190).

Based upon the officer's initial assessment of the nature and extent of the individual's injuries, medical assistance may consist of examination by an emergency medical services provider or medical personnel at a hospital or jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor or, if the on-scene supervisor is not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a

Use of Force

description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Individuals who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics, and imperviousness to pain, or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away.

See the Medical Aid and Response Policy for additional guidelines.

300.7 SUPERVISOR RESPONSIBILITIES

A supervisor should respond to a reported application of force resulting in visible injury, if reasonably available. When a supervisor is able to respond to an incident in which there has been a reported application of force, the supervisor is expected to:

- (a) Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (b) Ensure that any injured parties are examined and treated.
- (c) When possible, separately obtain a recorded interview with the individual upon whom force was applied. If this interview is conducted without the individual having voluntarily waived the individual's *Miranda* rights, the following shall apply:
 - 1. The content of the interview should not be summarized or included in any related criminal charges.
 - 2. The fact that a recorded interview was conducted should be documented in a property or other report.
 - 3. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.
- (d) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas.
 - 1. These photographs should be retained until all potential for civil litigation has expired.
- (e) Identify any witnesses not already included in related reports.
- (f) Review and approve all related reports.
- (g) Determine if there is any indication that the individual may pursue civil litigation.
 - 1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.

East Wenatchee Police Department

EWPD Policy Manual

Use of Force

- (h) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy noncompliance or if for any reason further investigation may be appropriate.

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

When an incident results in death, serious bodily harm, or great bodily harm, the supervisor shall immediately contact the Office of Independent Investigations pursuant to the procedures established by the Office of Independent Investigation (RCW 43.102.120).

300.7.1 ON-DUTY SUPERVISOR RESPONSIBILITY

The On-Duty Supervisor shall review each use of force by any personnel within his/her command to ensure compliance with this policy and to address any training issues.

300.8 TRAINING

All officers and supervisors shall receive training consistent with this policy and related use of force policies at least annually. Training should (Washington State Office of the Attorney General Model Use of Force Policy):

- Be a combination of classroom and scenario-based learning.
- Include community partners, when relevant and feasible.
- Incorporate cultural competency to understand disproportionately impacted communities, and how racialized experiences of policing and the criminal justice system may impact interactions with police.

This policy should be incorporated into defensive tactics curricula.

Officers shall receive training and subsequent periodic training on (RCW 43.101.450; RCW 43.101.495; RCW 10.120.010; RCW 10.120.020):

- (a) Guidelines regarding vulnerable populations, including but not limited to children, elderly, pregnant persons, and individuals with physical, mental, or intellectual disabilities.
- (b) De-escalation tactics, including reasonably effective alternatives to force including applicable legal requirements.
- (c) Duty to intervene.
- (d) Exercising reasonable care in determining when to use force.
- (e) Evaluation of whether certain applications of force are reasonable and proportional to the threat or resistance.
- (f) The Washington State Office of the Attorney General Model Use of Force Policy.

Use of Force

300.9 USE OF FORCE ANALYSIS

At least annually, the Operations Assistant Chief should prepare an analysis report on use of force incidents. The report should be submitted to the Chief of Police. The report should not contain the names of officers, suspects, or case numbers, and should include:

- (a) The identification of any trends in the use of force by members.
- (b) Training needs recommendations.
- (c) Equipment needs recommendations.
- (d) Policy revision recommendations.

Medical Aid and Response

433.1 PURPOSE AND SCOPE

This policy recognizes that members often encounter persons who appear to be in need of medical aid and establishes a law enforcement response to such situations.

433.2 POLICY

It is the policy of the East Wenatchee Police Department that all officers and other designated members be trained to provide emergency medical aid and to facilitate an emergency medical response.

433.3 FIRST RESPONDING MEMBER RESPONSIBILITIES

Whenever practicable, members should take appropriate steps to provide initial medical aid (e.g., first aid, CPR and use of an automated external defibrillator (AED)) in accordance with their training and current certification levels. This should be done for those in need of immediate care and only when the member can safely do so.

Prior to initiating medical aid, the member should contact RiverCom Communications and request response by emergency medical services (EMS) as the member deems appropriate.

Members should follow universal precautions when providing medical aid, such as wearing gloves and avoiding contact with bodily fluids, consistent with the Communicable Diseases Policy. Members should use a barrier or bag device to perform rescue breathing.

When requesting EMS, the member should provide RiverCom Communications with information for relay to EMS personnel in order to enable an appropriate response, including:

- (a) The location where EMS is needed.
- (b) The nature of the incident.
- (c) Any known scene hazards.
- (d) Information on the person in need of EMS, such as:
 - 1. Signs and symptoms as observed by the member.
 - 2. Changes in apparent condition.
 - 3. Number of patients, sex, and age, if known.
 - 4. Whether the person is conscious, breathing, and alert, or is believed to have consumed drugs or alcohol.
 - 5. Whether the person is showing signs of extreme agitation or is engaging in violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics, and imperviousness to pain.

Members should stabilize the scene whenever practicable while awaiting the arrival of EMS.

Members should not direct EMS personnel whether to transport the person for treatment.

Medical Aid and Response

Injured persons shall be monitored while in law enforcement custody (Washington State Office of the Attorney General Model Use of Force Policy).

433.4 TRANSPORTING ILL AND INJURED PERSONS

Except in extraordinary cases where alternatives are not reasonably available, members should not transport persons who are unconscious, who have serious injuries or who may be seriously ill. EMS personnel should be called to handle patient transportation.

Officers should search any person who is in custody before releasing that person to EMS for transport.

An officer should accompany any person in custody during transport in an ambulance when requested by EMS personnel, when it reasonably appears necessary to provide security, when it is necessary for investigative purposes or when so directed by a supervisor.

Members should not provide emergency escort for medical transport or civilian vehicles.

433.5 PERSONS REFUSING EMS CARE

If a person who is not in custody refuses EMS care or refuses to be transported to a medical facility, an officer shall not force that person to receive care or be transported. However, members may assist EMS personnel when EMS personnel determine the person lacks mental capacity to understand the consequences of refusing medical care or to make an informed decision and the lack of immediate medical attention may result in serious bodily injury or the death of the person.

In cases where mental illness may be a factor, the officer should consider proceeding with an emergency detention in accordance with the Emergency Detentions Policy.

If an officer believes that a person who is in custody requires EMS care and the person refuses, the officer should encourage the person to receive medical treatment. The officer may also consider contacting a family member to help persuade the person to agree to treatment or who may be able to authorize treatment for the person.

If the person still refuses, the officer will require the person to be transported to the nearest medical facility. In such cases, the officer should consult with a supervisor prior to the transport.

Members shall not sign refusal-for-treatment forms or forms accepting financial responsibility for treatment.

433.6 MEDICAL ATTENTION RELATED TO USE OF FORCE

Specific guidelines for medical attention for injuries sustained from a use of force may be found in the Use of Force, Handcuffing and Restraints, Control Devices and Techniques, and Conducted Energy Device policies.

Medical Aid and Response

433.7 AIR AMBULANCE

Generally, when on-scene, EMS personnel will be responsible for determining whether an air ambulance response should be requested. An air ambulance may be appropriate when there are victims with life-threatening injuries or who require specialized treatment (e.g., gunshot wounds, burns, obstetrical cases), and distance or other known delays will affect the EMS response.

The Assistant Chief should develop guidelines for air ambulance landings or enter into local operating agreements for the use of air ambulances, as applicable. In creating those guidelines, the Agency should identify:

- Responsibility and authority for designating a landing zone and determining the size of the landing zone.
- Responsibility for securing the area and maintaining that security once the landing zone is identified.
- Consideration of the air ambulance provider's minimum standards for proximity to vertical obstructions and surface composition (e.g., dirt, gravel, pavement, concrete, grass).
- Consideration of the air ambulance provider's minimum standards for horizontal clearance from structures, fences, power poles, antennas or roadways.
- Responsibility for notifying the appropriate highway or transportation agencies if a roadway is selected as a landing zone.
- Procedures for ground personnel to communicate with flight personnel during the operation.

One agency member at the scene should be designated as the air ambulance communications contact. Headlights, spotlights and flashlights should not be aimed upward at the air ambulance. Members should direct vehicle and pedestrian traffic away from the landing zone.

Members should follow these cautions when near an air ambulance:

- Never approach the aircraft until signaled by the flight crew.
- Always approach the aircraft from the front.
- Avoid the aircraft's tail rotor area.
- Wear eye protection during landing and take-off.
- Do not carry or hold items, such as IV bags, above the head.
- Ensure that no one smokes near the aircraft.

433.8 AUTOMATED EXTERNAL DEFIBRILLATOR (AED) USE

A semi-automatic external defibrillator or AED should only be used by members who have completed a course approved by the Washington State Department of Health (DOH) that includes instruction in CPR and the use of an AED (RCW 70.54.310).

East Wenatchee Police Department

EWPD Policy Manual

Medical Aid and Response

433.8.1 AED USER RESPONSIBILITY

Members who are issued AEDs for use in agency vehicles should check the AED at the beginning of the shift to ensure it is properly charged and functioning. Any AED that is not functioning properly will be taken out of service and given to the Assistant Chief who is responsible for ensuring appropriate maintenance.

Following use of an AED, the device shall be cleaned and/or decontaminated as required. The electrodes and/or pads will be replaced as recommended by the AED manufacturer.

Any member who uses an AED shall contact RiverCom Communications as soon as possible and request response by EMS (RCW 70.54.310).

433.8.2 AED REPORTING

Any member using an AED will complete an incident report detailing its use. Any data from usage shall be made available, upon request, to EMS or other health care providers (RCW 70.54.310).

433.8.3 AED TRAINING AND MAINTENANCE

The Assistant Chief should ensure appropriate training is provided to members authorized to use an AED.

The Assistant Chief is responsible for ensuring AED devices are appropriately maintained and tested consistent with the manufacturer's operational guidelines, and will retain records of all maintenance in accordance with the established records retention schedule (RCW 70.54.310).

433.9 ADMINISTRATION OF OPIOID OVERDOSE MEDICATION

Members may administer opioid overdose medication in accordance with protocol specified by the health care practitioner who prescribed the overdose medication for use by the member (RCW 69.41.095).

433.9.1 OPIOID OVERDOSE MEDICATION USER RESPONSIBILITIES

Members who are qualified to administer opioid overdose medication, such as naloxone, should handle, store and administer the medication consistent with their training. Members should check the medication and associated administration equipment at the beginning of their shift to ensure they are serviceable and not expired. Any expired medication or unserviceable administration equipment should be removed from service and given to the Assistant Chief.

Any member who administers an opioid overdose medication should contact RiverCom Communications as soon as possible and request response by EMS.

433.9.2 OPIOID OVERDOSE MEDICATION REPORTING

Any member administering opioid overdose medication should detail its use in an appropriate report.

The Assistant Chief will ensure that the Administrative Assistant is provided enough information to meet applicable state reporting requirements.

East Wenatchee Police Department

EWPD Policy Manual

Medical Aid and Response

433.9.3 OPIOID OVERDOSE MEDICATION TRAINING

The Assistant Chief should ensure training is provided to members authorized to administer opioid overdose medication.

433.10 SICK OR INJURED ARRESTEE

If an arrestee appears ill or injured, or claims illness or injury, he/she should be medically cleared prior to booking. If the officer has reason to believe the arrestee is feigning injury or illness, the officer should contact a supervisor, who will determine whether medical clearance will be obtained prior to booking.

If the jail or detention facility refuses to accept custody of an arrestee based on medical screening, the officer should note the name of the facility person refusing to accept custody and the reason for refusal, and should notify a supervisor to determine the appropriate action.

Arrestees who appear to have a serious medical issue should be transported by ambulance. Officers shall not transport an arrestee to a hospital without a supervisor's approval.

Nothing in this section should delay an officer from requesting EMS when an arrestee reasonably appears to be exhibiting symptoms that appear to be life threatening, including breathing problems or an altered level of consciousness, or is claiming an illness or injury that reasonably warrants an EMS response in accordance with the officer's training.

433.11 FIRST AID TRAINING

Subject to available resources, the Assistant Chief should ensure officers receive periodic first aid training appropriate for their position.

Firearms

306.1 PURPOSE AND SCOPE

This policy provides guidelines for issuing firearms, the safe and legal carrying of firearms, firearms maintenance, and firearms training.

This policy does not apply to issues related to the use of firearms that are addressed in the Use of Force or Officer-Involved Shootings and Deaths policies.

This policy only applies to those members who are authorized to carry firearms.

306.2 POLICY

The East Wenatchee Police Department will equip its members with firearms to address the risks posed to the public and agency members by violent and sometimes well-armed persons. The Agency will ensure firearms are appropriate and in good working order and that relevant training is provided as resources allow.

306.3 AUTHORIZED FIREARMS, AMMUNITION, AND OTHER WEAPONS

A firearm is a weapon with lethal ammunition carried by an officer that meets the firearm specifications of the Agency or that has been authorized as a specialty firearm by the Chief of Police or the authorized designee (Washington State Office of the Attorney General Model Use of Force Policy). Members shall only use firearms that are issued or approved by the Agency and have been thoroughly inspected by the Weapons Instructor.

All other weapons not provided by the Agency may not be carried by members in the performance of their official duties without the express written authorization of the member's Assistant Chief including but not limited to:

- (a) Edged weapons.
- (b) Chemical or electronic weapons.
- (c) Impact weapons.
- (d) Any weapon prohibited, or restricted by law, or that is not covered elsewhere by agency policy.

This exclusion does not apply to the carrying of a single folding pocketknife that is not otherwise prohibited by law.

306.3.1 HANDGUNS

The authorized agency-issued handgun is the Glock 17. Deviations from this may be authorized upon approval of the Chief of Police.

306.3.2 PATROL RIFLES

The authorized agency-issued patrol rifle is the Colt AR-15 .223. The following additional patrol rifles are approved for on-duty use:

East Wenatchee Police Department

EWPD Policy Manual

Firearms

MAKE	MODEL	CALIBER
Colt	M-16	.223
Ruger	556	5.56

Members may deploy the patrol rifle in any circumstance where the member can articulate a reasonable expectation that the rifle may be needed. Examples of some general guidelines for deploying the patrol rifle may include, but are not limited to:

- (a) Situations where the member reasonably anticipates an armed encounter.
- (b) When a member is faced with a situation that may require accurate and effective fire at long range.
- (c) Situations where a member reasonably expects the need to meet or exceed a suspect's firepower.
- (d) When a member reasonably believes that there may be a need to fire on a barricaded person or a person with a hostage.
- (e) When a member reasonably believes that a suspect may be wearing body armor.
- (f) When authorized or requested by a supervisor.
- (g) When needed to euthanize an animal.

When not deployed, the patrol rifle shall be properly secured consistent with agency training in a locking weapons rack in the patrol vehicle.

306.3.3 PERSONALLY OWNED DUTY FIREARMS

Members desiring to carry an authorized but personally owned duty firearm must receive written approval from the Chief of Police or the authorized designee. Once approved, personally owned duty firearms are subject to the following restrictions:

- (a) The firearm shall be in good working order.
- (b) The firearm shall be inspected by the Weapons Instructor prior to being carried and thereafter shall be subject to inspection whenever it is deemed necessary.
- (c) Prior to carrying the firearm, members shall qualify under range supervision and thereafter shall qualify in accordance with the agency qualification schedule. Members must demonstrate proficiency and safe handling, and that the firearm functions properly.
- (d) Members shall provide written notice of the make, model, color, serial number and caliber of the firearm to the Weapons Instructor, who will maintain a list of the information.

306.3.4 AUTHORIZED SECONDARY HANDGUN

Members desiring to carry agency or personally owned secondary handguns are subject to the following restrictions:

- (a) The handgun shall be in good working order.
- (b) Only one secondary handgun may be carried at a time.

East Wenatchee Police Department

EWPD Policy Manual

Firearms

- (c) The purchase of the handgun and ammunition shall be the responsibility of the member unless the handgun and ammunition are provided by the Agency.
- (d) The handgun shall be carried concealed at all times and in such a manner as to prevent unintentional cocking, discharge or loss of physical control.
- (e) The handgun shall be inspected by the Weapons Instructor prior to being carried and thereafter shall be subject to inspection whenever it is deemed necessary.
- (f) Ammunition shall be the same as agency issue. If the caliber of the handgun is other than agency issue, the Chief of Police or the authorized designee shall approve the ammunition.
- (g) Prior to carrying the secondary handgun, members shall qualify under range supervision and thereafter shall qualify in accordance with the agency qualification schedule. Members must demonstrate proficiency and safe handling, and that the handgun functions properly.
- (h) Members shall provide written notice of the make, model, color, serial number and caliber of a secondary handgun to the Weapons Instructor, who will maintain a list of the information.

306.3.5 AUTHORIZED OFF-DUTY FIREARMS

The carrying of firearms by members while off-duty is permitted by the Chief of Police but may be rescinded should circumstances dictate (e.g., administrative leave). Members who choose to carry a firearm while off-duty, based on their authority as peace officers, will be required to meet the following guidelines:

- (a) A personally owned firearm shall be used, carried and inspected in accordance with the Personally Owned Duty Firearms requirements in this policy.
 - 1. The purchase of the personally owned firearm and ammunition shall be the responsibility of the member.
- (b) The firearm shall be carried concealed at all times and in such a manner as to prevent unintentional cocking, discharge or loss of physical control.
- (c) It will be the responsibility of the member to submit the firearm to the Weapons Instructor for inspection prior to being personally carried. Thereafter the firearm shall be subject to periodic inspection by the Weapons Instructor.
- (d) Prior to carrying any off-duty firearm, the member shall demonstrate to the Weapons Instructor that he/she is proficient in handling and firing the firearm and that it will be carried in a safe manner.
- (e) The member will successfully qualify with the firearm prior to it being carried.
- (f) Members shall provide written notice of the make, model, color, serial number and caliber of the firearm to the Weapons Instructor, who will maintain a list of the information.
- (g) If a member desires to use more than one firearm while off-duty, he/she may do so, as long as all requirements set forth in this policy for each firearm are met.

East Wenatchee Police Department

EWPD Policy Manual

Firearms

- (h) Members shall only carry agency-authorized ammunition.
- (i) When armed, officers should carry their badges and East Wenatchee Police Department identification cards under circumstances requiring possession of such identification.

306.3.6 AMMUNITION

Members shall carry only agency-authorized ammunition. Members shall be issued fresh duty ammunition in the specified quantity for all agency-issued firearms during the member's firearms qualification. Replacements for unserviceable or depleted ammunition issued by the Agency shall be dispensed by the Weapons Instructor when needed, in accordance with established policy.

Members carrying personally owned authorized firearms of a caliber differing from agency-issued firearms shall be responsible for obtaining fresh duty ammunition in accordance with the above, at their own expense.

306.4 EQUIPMENT

Firearms carried on- or off-duty shall be maintained in a clean, serviceable condition. Maintenance and repair of authorized personally owned firearms are the responsibility of the individual member.

306.4.1 REPAIRS OR MODIFICATIONS

Each member shall be responsible for promptly reporting any damage or malfunction of an assigned firearm to a supervisor or the Weapons Instructor.

Firearms that are the property of the Agency or personally owned firearms that are approved for agency use may be repaired or modified only by a person who is agency-approved and certified as an armorer or gunsmith in the repair of the specific firearm. Such modification or repair must be authorized in advance by the Weapons Instructor.

Any repairs or modifications to the member's personally owned firearm shall be done at his/her expense and must be approved by the Weapons Instructor.

306.4.2 HOLSTERS

Only agency-approved holsters shall be used and worn by members. Members shall periodically inspect their holsters to make sure they are serviceable and provide the proper security and retention of the handgun.

306.4.3 TACTICAL LIGHTS

Tactical lights may only be installed on a firearm carried on- or off-duty after they have been examined and approved by the Weapons Instructor. Once the approved tactical lights have been properly installed on any firearm, the member shall qualify with the firearm to ensure proper functionality and sighting of the firearm prior to carrying it.

306.4.4 OPTICS OR LASER SIGHTS

Optics or laser sights may only be installed on a firearm carried on- or off-duty after they have been examined and approved by the Weapons Instructor. Any approved sight shall only be installed

East Wenatchee Police Department

EWPD Policy Manual

Firearms

in strict accordance with manufacturer specifications. Once approved sights have been properly installed on any firearm, the member shall qualify with the firearm to ensure proper functionality and sighting of the firearm prior to carrying it.

Except in an approved training situation, a member may only sight in on a target when the member would otherwise be justified in pointing a firearm at the target.

306.5 SAFE HANDLING, INSPECTION AND STORAGE

Members shall maintain the highest level of safety when handling firearms and shall consider the following:

- (a) Members shall not unnecessarily display or handle any firearm.
- (b) Members shall be governed by all rules and regulations pertaining to the use of the range and shall obey all orders issued by the Weapons Instructor. Members shall not dry fire or practice quick draws except as instructed by the Weapons Instructor or other firearms training staff.
- (c) Members shall not clean, repair, load or unload a firearm anywhere in the Agency, except where clearing barrels are present.
- (d) Shotguns or rifles removed from vehicles or the equipment storage room shall be loaded and unloaded in the sally port and outside of the vehicle, using clearing barrels.
- (e) Members shall not place or store any firearm or other weapon on agency premises except where the place of storage is locked.
- (f) Members shall not use any automatic firearm, heavy caliber rifle, gas or other type of chemical weapon or firearm from the armory, except with approval of a supervisor.
- (g) Any firearm authorized by the Agency to be carried on- or off-duty that is determined by a member to be malfunctioning or in need of service or repair shall not be carried. It shall be promptly presented to the Agency or a Weapons Instructor approved by the Agency for inspection and repair. Any firearm deemed in need of repair or service by the Weapons Instructor will be immediately removed from service. If the firearm is the member's primary duty firearm, a replacement firearm will be issued to the member until the duty firearm is serviceable.

306.5.1 INSPECTION AND STORAGE

Handguns shall be inspected regularly and upon access or possession by another person. Rifles shall be inspected at the beginning of the shift by the member to whom the weapon is issued. The member shall ensure that the firearm is carried in the proper condition and loaded with approved ammunition. Inspection of the rifle shall be done while standing outside of the patrol vehicle. All firearms shall be pointed in a safe direction or into clearing barrels.

Personally owned firearms may be safely stored in lockers at the end of the shift. Agency-owned firearms shall be stored in the appropriate equipment storage room. Handguns may remain loaded if they are secured in an appropriate holster. Rifles shall be unloaded in a safe manner outside the building and then stored in the appropriate equipment storage room.

Firearms

306.5.2 STORAGE AT HOME

Members shall ensure that all firearms and ammunition are locked and secured while in their homes, vehicles or any other area under their control, and in a manner that will keep them inaccessible to children and others who should not have access. Members shall not permit agency-issued firearms to be handled by anyone not authorized by the Agency to do so. Members should be aware that negligent storage of a firearm could result in civil liability.

306.5.3 ALCOHOL AND DRUGS

Firearms shall not be carried by any member, either on- or off-duty, who has consumed an amount of an alcoholic beverage, taken any drugs or medication, or has taken any combination thereof that would tend to adversely affect the member's senses or judgment.

306.6 FIREARMS TRAINING AND QUALIFICATIONS

All members who carry a firearm while on-duty are required to successfully complete training quarterly with their duty firearms. In addition to quarterly training, all members will qualify at least annually with their duty firearms. Members will qualify with off-duty and secondary firearms at least twice a year. Training and qualifications must be on an approved range course.

At least annually, all members carrying a firearm should receive practical training designed to simulate field situations including low-light shooting.

306.6.1 NON-CERTIFICATION OR NON-QUALIFICATION

If any member fails to meet minimum standards for firearms training or qualification for any reason, including injury, illness, duty status or scheduling conflict, that member shall submit a memorandum to his/her immediate supervisor prior to the end of the required training or qualification period.

Those who fail to meet minimum standards or qualify on their first shooting attempt shall be provided remedial training and will be subject to the following requirements:

- (a) Additional range assignments may be scheduled to assist the member in demonstrating consistent firearm proficiency.
- (b) Members shall be given credit for a range training or qualification when obtaining a qualifying score or meeting standards after remedial training.
- (c) No range credit will be given for the following:
 - 1. Unauthorized range make-up.
 - 2. Failure to meet minimum standards or qualify after remedial training.

Members who repeatedly fail to meet minimum standards will be removed from field assignment and may be subject to disciplinary action.

306.7 FIREARM DISCHARGE

Except during training or recreational use, any member who discharges a firearm intentionally or unintentionally, on- or off-duty, shall make a verbal report to his/her supervisor as soon as circumstances permit. If the discharge results in injury or death to another person, additional

East Wenatchee Police Department

EWPD Policy Manual

Firearms

statements and reports shall be made in accordance with the Officer-Involved Shootings and Deaths Policy. If a firearm was discharged as a use of force, the involved member shall adhere to the additional reporting requirements set forth in the Use of Force Policy.

In all other cases, written reports shall be made as follows:

- (a) If on-duty at the time of the incident, the member shall file a written report with his/her Assistant Chief or provide a recorded statement to investigators prior to the end of shift, unless otherwise directed.
- (b) If off-duty at the time of the incident, a written report shall be submitted or recorded statement provided no later than the end of the next regularly scheduled shift, unless otherwise directed by a supervisor.

306.7.1 DESTRUCTION OF ANIMALS

Members are authorized to use firearms to stop an animal in circumstances where the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

In circumstances where there is sufficient advance notice that a potentially dangerous animal may be encountered, agency members should develop reasonable contingency plans for dealing with the animal (e.g., fire extinguisher, TASER device, oleoresin capsicum (OC) spray, animal control officer). Nothing in this policy shall prohibit any member from shooting a dangerous animal if circumstances reasonably dictate that a contingency plan has failed or becomes impractical.

306.7.2 INJURED ANIMALS

A member may euthanize an animal that is so badly injured that human compassion requires its removal from further suffering and where other dispositions are impractical. The member shall document the event and submit it to their supervisor.

306.7.3 WARNING SHOTS

An officer shall not use a firearm to fire a warning shot (Washington State Office of the Attorney General Model Use of Force Policy).

306.8 WEAPONS INSTRUCTOR DUTIES

The range will be under the exclusive control of the Weapons Instructor. All members attending will follow the directions of the Weapons Instructor. The Weapons Instructor will maintain a roster of all members attending the range and will submit the roster to the Assistant Chief after each range date. Failure of any officer to sign in and out with the Weapons Instructor may result in non-participation or non-qualification.

The range shall remain operational and accessible to agency members during hours established by the Agency.

The Weapons Instructor has the responsibility of making periodic inspections, at least once a year, of all duty weapons carried by officers of this agency to verify proper operation. The Weapons

East Wenatchee Police Department

EWPD Policy Manual

Firearms

Instructor has the authority to deem any agency-issued or personally owned firearm unfit for service. The member will be responsible for all repairs to his/her personally owned firearm; it will not be returned to service until inspected and approved by the Weapons Instructor.

The Weapons Instructor has the responsibility for ensuring each member meets the minimum requirements during training shoots and, on at least a yearly basis, can demonstrate proficiency in the care, cleaning and safety of all firearms the member is authorized to carry.

The Weapons Instructor shall complete and submit to the Assistant Chief documentation of the training courses provided. Documentation shall include the qualifications of each instructor who provides the training, a description of the training provided and, on a form that has been approved by the Agency, a list of each member who completes the training. The Weapons Instructor should keep accurate records of all training shoots, qualifications, repairs, maintenance or other records as directed by the Assistant Chief.

306.9 FLYING WHILE ARMED

The Transportation Security Administration (TSA) has imposed rules governing law enforcement officers flying armed on commercial aircraft. The following requirements apply to officers who intend to be armed while flying on a commercial air carrier or flights where screening is conducted (49 CFR 1544.219):

- (a) Officers wishing to fly while armed must be flying in an official capacity, not for vacation or pleasure, and must have a need to have the firearm accessible, as determined by the Agency based on the law and published TSA rules.
- (b) Officers must carry their East Wenatchee Police Department identification card, bearing the officer's name, a full-face photograph, identification number, the officer's signature and the signature of the Chief of Police or the official seal of the Agency and must present this identification to airline officials when requested. The officer should also carry the standard photo identification needed for passenger screening by airline and TSA officials (e.g., driver license, passport).
- (c) The East Wenatchee Police Department must submit a National Law Enforcement Telecommunications System (NLETS) message prior to the officer's travel. If approved, TSA will send the East Wenatchee Police Department an NLETS message containing a unique alphanumeric identifier. The officer must present the message on the day of travel to airport personnel as authorization to travel while armed.
- (d) An official letter signed by the Chief of Police authorizing armed travel may also accompany the officer. The letter should outline the officer's need to fly armed, detail his/her itinerary, and include that the officer has completed the mandatory TSA training for a law enforcement officer flying while armed.
- (e) Officers must have completed the mandated TSA security training covering officers flying while armed. The training shall be given by the agency-appointed instructor.

East Wenatchee Police Department

EWPD Policy Manual

Firearms

- (f) It is the officer's responsibility to notify the air carrier in advance of the intended armed travel. This notification should be accomplished by early check-in at the carrier's check-in counter.
- (g) Any officer flying while armed should discreetly contact the flight crew prior to take-off and notify them of his/her assigned seat.
- (h) Discretion must be used to avoid alarming passengers or crew by displaying a firearm. The officer must keep the firearm concealed on his/her person at all times. Firearms are not permitted in carry-on luggage and may not be stored in an overhead compartment.
- (i) Officers should try to resolve any problems associated with flying armed through the flight captain, ground security manager, TSA representative or other management representative of the air carrier.
- (j) Officers shall not consume alcoholic beverages while aboard an aircraft, or within eight hours prior to boarding an aircraft.

306.10 CARRYING FIREARMS OUT OF STATE

Qualified, active, full-time officers of this agency are authorized to carry a concealed firearm in all other states subject to the following conditions (18 USC § 926B):

- (a) The officer shall carry his/her East Wenatchee Police Department identification card whenever carrying such firearm.
- (b) The officer is not the subject of any current disciplinary action.
- (c) The officer may not be under the influence of alcohol or any other intoxicating or hallucinatory drug.
- (d) The officer will remain subject to this and all other agency policies (including qualifying and training).

Officers are cautioned that individual states may enact local regulations that permit private persons or entities to prohibit or restrict the possession of concealed firearms on their property, or that prohibit or restrict the possession of firearms on any state or local government property, installation, building, base or park. Federal authority may not shield an officer from arrest and prosecution in such locally restricted areas.

Active permits from other states are subject to all requirements set forth in 18 USC § 926B.

Conducted Energy Device

304.1 PURPOSE AND SCOPE

This policy provides guidelines for the issuance and use of TASER (TM) devices.

304.1.1 DEFINITIONS

Definitions related to this policy include (Washington State Office of the Attorney General Model Use of Force Policy):

Conducted energy device - A portable device that fires darts/electrodes that transmit an electrical charge or current intended to temporarily immobilize a person (e.g., TASER device).

304.2 POLICY

The TASER device is intended to control a violent or potentially violent individual, while minimizing the risk of serious injury. The appropriate use of such a device should result in fewer serious injuries to officers and suspects.

304.3 ISSUANCE AND CARRYING TASER DEVICES

Only members who have successfully completed agency-approved training and have demonstrated satisfactory skill and proficiency may be issued and carry the TASER device.

An officer that is issued a TASER device is expected to carry it as an option to be considered when deadly force is not justified (Washington State Office of the Attorney General Model Use of Force Policy).

TASER devices are issued for use during a member's current assignment. Those leaving a particular assignment may be required to return the device to the agency's inventory.

Officers shall only use the TASER device and cartridges that have been issued by the Agency. Uniformed officers who have been issued the TASER device shall wear the device in an approved holster on their person. Non-uniformed officers may secure the TASER device in the driver's compartment of their vehicle.

When consistent with training, an officer carrying a TASER device shall perform a function check on the weapon and check remaining battery life prior to every shift. An officer should report any malfunction to a supervisor or other appropriate personnel.

An officer shall carry a TASER device on the support side of the body, and in all but extreme circumstances, shall draw, exhibit, and use the device with the support (i.e., non-handgun firing) hand (Washington State Office of the Attorney General Model Use of Force Policy).

- (a) All TASER devices shall be clearly and distinctly marked to differentiate them from the duty weapon and any other device.
- (b) Whenever practicable, officers should carry two or more cartridges on their person when carrying the TASER device.

Conducted Energy Device

- (c) Officers shall be responsible for ensuring that their issued TASER device is properly maintained and in good working order.
- (d) Officers should not hold both a firearm and the TASER device at the same time.

304.4 VERBAL AND VISUAL WARNINGS

A verbal warning of the intended use of the TASER device should precede its application, unless it would otherwise endanger the safety of officers or when it is not practicable due to the circumstances. The purpose of the warning is to:

- (a) Provide the individual with a reasonable opportunity to voluntarily comply.
- (b) Provide other officers and individuals with a warning that the TASER device may be deployed.

If, after a verbal warning, an individual is unwilling to voluntarily comply with an officer's lawful orders and it appears both reasonable and feasible under the circumstances, the officer may, but is not required to, display the electrical arc (provided that a cartridge has not been loaded into the device), or the laser in a further attempt to gain compliance prior to the application of the TASER device. The aiming laser should never be intentionally directed into the eyes of another as it may permanently impair his/her vision.

The fact that a verbal or other warning was given or the reasons it was not given shall be documented by the officer deploying the TASER device in the related report.

304.5 USE OF THE TASER DEVICE

The TASER device has limitations and restrictions requiring consideration before its use. The TASER device should only be used when its operator can safely approach the subject within the operational range of the device. Although the TASER device is generally effective in controlling most individuals, officers should be aware that the device may not achieve the intended results and be prepared with other options.

304.5.1 APPLICATION OF THE TASER DEVICE

The TASER device may be used in any of the following circumstances, when the circumstances perceived by the officer at the time indicate that such application is reasonably necessary to control a person:

- (a) The subject is violent or is physically resisting.
- (b) The subject has demonstrated, by words or action, an intention to be violent or to physically resist, and reasonably appears to present the potential to harm officers, themselves, or others.

Mere flight from a pursuing officer, without other known circumstances or factors, is not good cause for the use of the TASER device to apprehend an individual.

Conducted Energy Device

304.5.2 SPECIAL DEPLOYMENT CONSIDERATIONS

The use of the TASER device on certain individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear ineffective or would present a greater danger to the officer, the subject, or others, and the officer reasonably believes that the need to control the individual outweighs the risk of using the device. This includes (Washington State Office of the Attorney General Model Use of Force Policy):

- (a) Individuals who are known to be pregnant.
- (b) Elderly individuals or obvious juveniles.
- (c) Individuals with obviously low body mass.
- (d) Individuals who are handcuffed or otherwise restrained.
- (e) In any environment where an officer knows or has reason to believe that a potentially flammable, volatile, or explosive material is present that might be ignited by an open spark, including but not limited to OC spray with a volatile propellant, gasoline, natural gas, or propane.
- (f) Individuals who are situated on an elevated surface (e.g., a ledge, scaffold, near a precipice) unless reasonable efforts have been made to prevent or minimize a fall-related injury (e.g., deploying a safety net).
- (g) Operators in physical control of vehicles in motion, including automobiles, trucks, motorcycles, all-terrain vehicles, bicycles, and scooters unless deadly force is justified.

The primary use of a TASER device is not as a pain compliance tool. Drive-stun mode should only be used when necessary to complete the incapacitation circuit where only one probe has attached to the person, where both probes attached in close proximity, or when no other alternatives to deadly force are available and appropriate (Washington State Office of the Attorney General Model Use of Force Policy).

The TASER device shall not be used to psychologically torment, elicit statements, or to punish any individual.

304.5.3 TARGETING CONSIDERATIONS

Reasonable efforts should be made to target lower center mass and avoid the head, neck, chest and groin. If the dynamics of a situation or officer safety do not permit the officer to limit the application of the TASER device probes to a precise target area, officers should monitor the condition of the subject if one or more probes strikes the head, neck, chest or groin until the subject is examined by paramedics or other medical personnel.

304.5.4 MULTIPLE APPLICATIONS OF THE TASER DEVICE

Officers shall apply the TASER device for only one standard cycle of five seconds or less and then evaluate the situation before applying any subsequent cycles (Washington State Office of the Attorney General Model Use of Force Policy). Multiple applications of the TASER device against a single individual are generally not recommended and should be avoided unless the officer

East Wenatchee Police Department

EWPD Policy Manual

Conducted Energy Device

reasonably believes that the need to control the individual outweighs the potentially increased risk posed by multiple applications.

If the first application of the TASER device appears to be ineffective in gaining control of an individual, the officer should consider certain factors before additional applications of the TASER device, including:

- (a) Whether the probes are making proper contact.
- (b) Whether the individual has the ability and has been given a reasonable opportunity to comply.
- (c) Whether verbal commands, other options or tactics may be more effective.

Multiple applications of the TASER device increase the risk of serious bodily injury or death. Officers should not intentionally deploy multiple TASER devices at the same person, unless the first deployed TASER device clearly fails. An officer shall consider other options if the officer has used a TASER device three times against a person and the person continues to be a threat, as the TASER device may not be effective against that person (Washington State Office of the Attorney General Model Use of Force Policy).

304.5.5 ACTIONS FOLLOWING DEPLOYMENTS

Officers should take appropriate actions to control and restrain the individual to minimize the need for longer or multiple exposures to the TASER. As soon as practicable, officers shall notify a supervisor of all TASER device discharges. Confetti tags should be collected and the expended cartridge, along with both probes and wire, should be submitted into evidence. The cartridge serial number should be noted and documented on the evidence paperwork. The evidence packaging should be marked "Biohazard" if the probes penetrated the subject's skin.

304.5.6 DANGEROUS ANIMALS

The TASER device may be deployed against an animal as part of a plan to deal with a potentially dangerous animal, such as a dog, if the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

304.5.7 OFF-DUTY CONSIDERATIONS

Officers are not authorized to carry agency TASER devices while off-duty.

Officers shall ensure that TASER devices are secured while in their homes, vehicles or any other area under their control, in a manner that will keep the device inaccessible to others.

304.6 DOCUMENTATION

An officer shall clearly articulate and document the justification for each individual application of the TASER device in the related arrest/crime report and the TASER device report form (Washington State Office of the Attorney General Model Use of Force Policy). Notification shall also be made to a supervisor in compliance with the Use of Force Policy. Unintentional discharges, pointing the device at a person, laser activation, and arcing the device will also be documented on the report form.

East Wenatchee Police Department

EWPD Policy Manual

Conducted Energy Device

304.6.1 TASER DEVICE FORM

Items that shall be included in the TASER device report form are:

- (a) The type and brand of TASER device and cartridge and cartridge serial number.
- (b) Date, time and location of the incident.
- (c) Whether any display, laser or arc deterred a subject and gained compliance.
- (d) The number of TASER device activations, the duration of each cycle, the duration between activations, and (as best as can be determined) the duration that the subject received applications.
- (e) The range at which the TASER device was used.
- (f) The type of mode used (probe or drive-stun).
- (g) Location of any probe impact.
- (h) Location of contact in drive-stun mode.
- (i) Description of where missed probes went.
- (j) Whether medical care was provided to the subject.
- (k) Whether the subject sustained any injuries.
- (l) Whether any officers sustained any injuries.

The Assistant Chief should periodically analyze the report forms to identify trends, including deterrence and effectiveness. The Assistant Chief should also conduct audits of data downloads and reconcile TASER device report forms with recorded activations. TASER device information and statistics, with identifying information removed, should periodically be made available to the public.

304.6.2 REPORTS

The officer should include the following in the arrest/crime report:

- (a) Identification of all personnel firing TASER devices
- (b) Identification of all witnesses
- (c) Medical care provided to the subject
- (d) Observations of the subject's physical and physiological actions
- (e) Any known or suspected drug use, intoxication or other medical problems

304.7 MEDICAL TREATMENT

At the earliest safe opportunity at a scene controlled by law enforcement, officers shall remove TASER device probes, unless probes are in a sensitive area, such as the head, breast, or groin. Probes in sensitive areas shall be removed by an emergency medical technician (EMT), paramedic, or other health care professional (Washington State Office of the Attorney General

East Wenatchee Police Department

EWPD Policy Manual

Conducted Energy Device

Model Use of Force Policy). Used TASER device probes shall be treated as a sharps biohazard, similar to a used hypodermic needle and handled appropriately. Universal precautions should be taken.

All persons who have been struck by TASER device probes or who have been subjected to the electric discharge of the device or who sustained direct exposure of the laser to the eyes shall be medically assessed prior to booking. Additionally, any such individual who falls under any of the following categories should, as soon as practicable, be examined by paramedics or other qualified medical personnel:

- (a) The person is suspected of being under the influence of controlled substances and/or alcohol.
- (b) The person may be pregnant.
- (c) The person reasonably appears to be in need of medical attention.
- (d) The TASER device probes are lodged in a sensitive area (e.g., groin, female breast, head, face, neck).
- (e) The person requests medical treatment.

Any individual exhibiting signs of distress or who is exposed to multiple or prolonged applications (i.e., more than 15 seconds) shall be transported to a medical facility for examination or medically evaluated prior to booking. If any individual refuses medical attention, such a refusal should be witnessed by another officer and/or medical personnel and shall be fully documented in related reports. If an audio recording is made of the contact or an interview with the individual, any refusal should be included, if possible.

The transporting officer shall inform any person providing medical care or receiving custody that the individual has been subjected to the application of the TASER device (see the Medical Aid and Response Policy).

304.8 SUPERVISOR RESPONSIBILITIES

When possible, supervisors should respond to calls when they reasonably believe there is a likelihood the TASER device may be used. A supervisor should respond to all incidents where the TASER device was activated.

A supervisor should review each incident where a person has been exposed to an activation of the TASER device. The device's onboard memory should be downloaded through the data port by a supervisor or Weapons Instructor and saved with the related arrest/crime report. Photographs of probe sites should be taken and witnesses interviewed.

304.9 TRAINING

Personnel who are authorized to carry the TASER device shall be permitted to do so only after successfully completing the initial agency-approved training and demonstrating satisfactory skill and proficiency. Any personnel who have not carried the TASER device as a part of their

East Wenatchee Police Department

EWPD Policy Manual

Conducted Energy Device

assignment for a period of six months or more shall be recertified by a agency-approved TASER device instructor prior to again carrying or using the device.

Proficiency training for personnel who have been issued TASER devices should occur every year. A reassessment of an officer's knowledge and/or practical skill may be required at any time if deemed appropriate by the Assistant Chief. All training and proficiency for TASER devices will be documented in the officer's training file.

Command staff, supervisors, and investigators should receive TASER device training as appropriate for the investigations they conduct and review.

Officers who do not carry TASER devices should receive training that is sufficient to familiarize them with the device and with working with officers who use the device.

The Assistant Chief is responsible for ensuring that all members who carry TASER devices have received initial and annual proficiency training. Periodic audits should be used for verification.

Application of TASER devices during training could result in injury to personnel and should not be mandatory for certification.

The Assistant Chief should ensure that all training includes:

- (a) A review of this policy.
- (b) A review of the Use of Force Policy.
- (c) Performing weak-hand draws or cross-draws to reduce the possibility of unintentionally drawing and firing a firearm.
- (d) Target area considerations, to include techniques or options to reduce the unintentional application of probes near the head, neck, chest, and groin.
- (e) Handcuffing a subject during the application of the TASER device and transitioning to other force options.
- (f) De-escalation techniques.
- (g) Restraint techniques that do not impair respiration following the application of the TASER device.

Use of Force Review Boards

301.1 PURPOSE AND SCOPE

This policy establishes a process for the East Wenatchee Police Department to review the use of force by its employees.

This review process shall be in addition to any other review or investigation that may be conducted by any outside or multi-agency entity having jurisdiction over the investigation or evaluation of the use of deadly force.

301.2 POLICY

The East Wenatchee Police Department will objectively evaluate the use of force by its members to ensure that their authority is used lawfully, appropriately and is consistent with training and policy.

301.3 REMOVAL FROM LINE DUTY ASSIGNMENT

Generally, whenever an employee's actions or use of force in an official capacity, or while using agency equipment, results in death or very serious injury to another, that employee will be placed in a temporary administrative assignment pending an administrative review. The Chief of Police may exercise discretion and choose not to place an employee in an administrative assignment in any case.

301.4 REVIEW BOARD

The Use of Force Review Board will be convened when the use of force by a member results in very serious injury or death to another.

The Use of Force Review Board will also investigate and review the circumstances surrounding every discharge of a firearm, whether the employee was on- or off-duty, excluding training or recreational use.

The Chief of Police may request the Use of Force Review Board to investigate the circumstances surrounding any use of force incident.

The Assistant Chief will convene the Use of Force Review Board as necessary. It will be the responsibility of the supervisor of the involved employee to notify the Assistant Chief of any incidents requiring board review. The involved employee's supervisor will also ensure that all relevant reports, documents and materials are available for consideration and review by the board.

301.4.1 COMPOSITION OF THE BOARD

The Assistant Police Chief will chair the board and select a minimum of two Use of Force Review Board members from the following, as appropriate:

- Sergeant
- A peer officer
- Instructor for the type of weapon, device or technique used

East Wenatchee Police Department

EWPD Policy Manual

Use of Force Review Boards

- A sworn peace officer from an outside law enforcement agency

301.4.2 RESPONSIBILITIES OF THE BOARD

The Use of Force Review Board is empowered to conduct an administrative review and inquiry into the circumstances of an incident.

The board members may request further investigation, request reports be submitted for the board's review, call persons to present information and request the involved employee to appear. The involved employee will be notified of the meeting of the board and may choose to have a representative through all phases of the review process.

The board does not have the authority to recommend discipline.

The Chief of Police will determine whether the board should delay its review until after completion of any criminal investigation, review by any prosecutorial body, filing of criminal charges, the decision not to file criminal charges, or any other action. The board should be provided all relevant available material from these proceedings for its consideration.

The review shall be based upon those facts which were reasonably believed or known by the officer at the time of the incident, applying any legal requirements, agency policies, procedures and approved training to those facts. Facts later discovered but unknown to the officer at the time shall neither justify nor call into question an officer's decision regarding the use of force.

Any questioning of the involved employee conducted by the board will be in accordance with the agency's disciplinary procedures, the Personnel Complaints Policy, the current collective bargaining agreement and any applicable state or federal law.

The board shall make one of the following recommended findings:

- (a) The employee's actions were within agency policy and procedure.
- (b) The employee's actions were in violation of agency policy and procedure.

A recommended finding requires a majority vote of the board. The board may also recommend additional investigations or reviews, such as disciplinary investigations, training reviews to consider whether training should be developed or revised, and policy reviews, as may be appropriate. The board chairperson will submit the written recommendation to the Chief of Police.

The Chief of Police shall review the recommendation, make a final determination as to whether the employee's actions were within policy and procedure and will determine whether any additional actions, investigations or reviews are appropriate. The Chief of Police's final findings will be forwarded to the involved employee's Assistant Chief for review and appropriate action. If the Chief of Police concludes that discipline should be considered, a disciplinary process will be initiated.

At the conclusion of any additional reviews, copies of all relevant reports and information will be filed with the Chief of Police.
